K-State Entomology Department

NEW EMPLOYEE SAFETY ORIENTATION CHECK LIST*

(Approved by the Entomology Faculty on December 13, 2000)

by Supervisor

Name of New Employee _________________________________________________________

Position __________________________________  Date _______________________________

_____ Provided a copy of the Entomology Department Good Laboratory Safety Practices (GLSP) and requested the new employee to read it.

_____ Reviewed minimum housekeeping standards and where cleaning supplies are stored.

_____ Indicated the locations of Material Safety Data Sheets (MSDS) for the project/lab and explained how to file and use the MSDS (Please see #2 and Appendix I in the GLSP).

_____ Explained the policies and procedures for disposing of broken glassware, used sharps, burned-out lamps, discharged batteries, and chemical wastes (Please see Appendixes II-VI in the GLSP).

_____ Indicated the locations of Emergency Action Manual of the K-State Research-Extension (Rooms 25, 123, 133 West Waters Hall) and indicated emergency convening locations for fire and tornado.

_____ Indicated the location(s) of the KSU Radiation Safety Manual and explained general policies and procedures for ordering and using radioactive materials in the lab.

_____ Located First Aid Kit(s) for all areas that the employee will work.

_____ Located the eye wash or/and safety shower station(s) in the lab and explained how to use them.

_____ Located fire extinguisher(s) for all areas that the employee will work.

_____ Gave general policies and safety orientation for using state vehicles for the job by the new employee, and indicated what to do if involved in a vehicle accident (see Emergency Action Manual.

_____ Gave safety orientation for using major equipment for the job by the new employee. Such as:

__________________________________________
Understands that safety orientation will be given on minor equipment as needed, such as:

Advised the new employee who will wear Personal Protective Equipment (PPE) for the job to receive training in the proper use and care of PPE (please see http://www.oznet.ksu.edu/pr_agsafe/personalprotective3.htm).

Informed the new employee where PPE is kept and how the employee gains access to when needed. The following PPE will be used for the job:

<table>
<thead>
<tr>
<th>Safety Glasses</th>
<th>Goggles</th>
<th>Earplugs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dust Masks</td>
<td>Resp. Mask</td>
<td>Resp. Filters</td>
</tr>
<tr>
<td>Gloves, Leather</td>
<td>Gloves, Latex</td>
<td>Lab Coats</td>
</tr>
<tr>
<td>Tyvek Suits</td>
<td></td>
<td></td>
</tr>
<tr>
